53	0.009125	0.025390	0.019930			
54	0.009713	0.028453	0.026375			
55	0.011323	0.037973	0.032883			
56	0.011605	0.038520	0.036470			
57	0.013640	0.046653	0.039043			
58	0.014958	0.053380	0.047133			

If you choose to use a single set of tables for both men's and women's events, then these tables should be used for all men's events and for women's events. Women's F38 Discus should use the points score 0.054047 as the basis.

If you choose to use separate tables for men's and women's events, then the women's table should be used in addition to this table. The comment about the women's Class F38 discus should, therefore, be ignored.

Key:

* = Class F38 women use a different score in Discus throw only = 0.054047

** = Club event listed in Javelin column

To get a result:

Men's Shot

Athlete A	Class F54	Best distance 9.55m	Score is 9.55 / 0.009713	=	983 points
Athlete B	Class F57	Best distance 11.88m	Score is 11.88 / 0.013640	=	870 points

WOMEN'S TABLE

	SHOT	DISCUS	JAVELIN	HIGH JUMP	LONG JUMP	TRIPLE JUMP

58	0.010045	0.031445	0.029488			

A working group is being set up to decide whether to use only men's tables, as was decided in 2006 by the SAEC, or to revert to using separate women's tables. This decision will come into force for the 2008 season, including the Paralympic Games 2008.

Key:

** = Club event listed in Javelin column
